VOLUME 5 *August 1944—June 1945* BETHESDA, MD.

CONTENTS

Page

Radioactivity and Lung Cancer; a Critical Review of Lung Cancer in the Miners of Schneeberg and Joachimsthal, by EGON LORENZ 1

Relationship of Amyloid Infiltration and Renal Disease in Mice, by THELMA B. DUNN 17

Esterase Activity of Blood Serum of Four Strains of Mice, by MICHAEL B. SHIMKIN, JESSE P. GREENSTEIN, and HOWARD B. ANDERVONT 29

Esterase (Butyric Esterase) Activity of Normal and Neoplastic Tissues of the Mouse, by JESSE P. GREENSTEIN 31

Comparative Oxidase Activity of Melanotic and Amelanotic Melanomas, by JESSE P. GREENSTEIN and GLENN H. ALGIRE 35

Note on the Cystine Oxidase Activity in Normal and Neoplastic Tissues of the Mouse, by JESSE P. GREENSTEIN and FLORENCE M. LEUTHARDT 39

Effect of a Low Lysine Diet on Mammary-Tumor Formation in Strain C3H Mice, by FLORENCE R. WHITE and JULIUS WHITE 41

Effect of Caloric Restriction on Mammary-Tumor Formation in Strain C3H Mice and on the Response of Strain dba to Painting With Methylcholanthrene, by FLORENCE R. WHITE, JULIUS WHITE, G. BURROUGHS MIDER, MARGARET G. KELLY, and WALTER E. HESTON 43

Effect of Diet Upon the Development of Mammary Glands in Strain C3H Mice, by FLORENCE R. WHITE 49

Chemical Studies on Human Cancer. I. Cytochrome Oxidase, Cytochrome *C*, and Copper in Normal and Neoplastic Tissues, by JESSE P. GREENSTEIN, JACOB WERNE, ALLEN B. ESCHENBRENNER, and FLORENCE M. LEUTHARDT 55

Research Activities of the National Cancer Institute, by MICHAEL B. SHIMKIN 77

Relationships Between Spontaneous Tumors of the Lung and Cutaneous Tumors Induced With Ultraviolet Radiation in Strain A Mice, by HAROLD F. BLUM 89

Histologic Changes in the Adrenal Glands of Tumor-Bearing Mice, by ALBERT J. DALTON 99

647469—45

Page

Sulfur Distribution in Extracts of Normal and Neoplastic Tissues, by JESSE P. GREENSTEIN and FLORENCE M. LEUTHARDT 111

Review of the Nutritive Requirements of Normal Mice for Growth, Maintenance, Reproduction, and Lactation, by HAROLD P. MORRIS 115

Properties of the Mouse Mammary-Tumor Agent, by HOWARD B. ANDERVONT and W. RAY BRYAN 143

Growth and Pathology of Melanoma S91 in Mice of Strains dba, A, and C, by GLENN H. ALGIRE 151

Role of Heredity in Tumor Development, by WALTER E. HESTON 161

Attempts to Produce Anaphylaxis in Guinea Pigs With a Polysaccharide From *Serratia marcescens* (*Bacillus prodigiosus*), by F. E. FRANKE 173

Effects of Sublethal Doses of a Polysaccharide From *Serratia marcescens* (*Bacillus prodigiosus*) on the Electrocardiogram, Blood Ascorbic Acid, and Nonprotein Nitrogen of the Dog, by F. E. FRANKE and DAN RICHERT 179

Action of Toxic Doses of the Polysaccharide From *Serratia marcescens* (*Bacillus prodigiosus*) on the Dog and Guinea Pig, by F. E. FRANKE 185

Chemical Treatment of Tumors. X. Reactions of Four Patients With Advanced Malignant Tumors to Injection of a Polysaccharide From *Serratia marcescens* Culture Filtrate, by AUSTIN M. BRUES and M. J. SHEAR 195

Degradation of Cystine Peptides by Tissues. I. Exocystine Desulfurase and Dehydropeptidase in Rat-Liver Extracts, by JESSE P. GREENSTEIN and FLORENCE M. LEUTHARDT 209

Degradation of Cystine Peptides by Tissues. II. Distribution of Exocystine Desulfurase and Dehydropeptidase in Tissue Extracts of Various Species, by JESSE P. GREENSTEIN and FLORENCE M. LEUTHARDT 223

Gastric Function of Dogs After Stimulation With Acetyl-β-Methylcholine Chloride and Histamine Diphosphate, by HELEN M. DYER and MARGARET G. KELLY 227

Experimental Roentgen Injury. V. Effects on Hematopoietic Reserves and Regenerative Capacity, by PAUL S. HENSHAW, JEAN W. THOMPSON, and HENRY L. MEYER 233

Degradation of Cystine Peptides by Tissues. III. Absence of Exocystine Desulfurase and Dehydropeptidase in Tumors, by JESSE P. GREENSTEIN and FLORENCE M. LEUTHARDT 249

Induction of Hepatomas in Mice by Repeated Oral Administration of Chloroform, With Observations on Sex Differences, by ALLEN B. ESCHENBRENNER 251

Multiple Tray for Embedding Tissues in Paraffin, by ALBERT M. KESSEL 257

Source of Tumor Proteins. I. Effect of a Low-Nitrogen Diet on the Establishment and Growth of a Transplanted Tumor, by FLORENCE R. WHITE and MORRIS BELKIN 261

Source of Tumor Proteins. II. Nitrogen-Balance Studies of Tumor-Bearing Mice Fed a Low-Nitrogen Diet, by FLORENCE R. WHITE 265

A Restraining Jacket for the Rat, by HAROLD P. MORRIS and THELMA B. DUNN 269

Page

Technique for Studying Epithelization of Paired Skin Wounds in Rats, With Observations on the Influence of Dietary Protein, by HAROLD P. MORRIS, CELIA S. DUBNIK, and THELMA B. DUNN 271

Technique for Making and Examining Experimental Epithelial Wounds in the Rat, by THELMA B. DUNN 283

Behavior of Thymus Tissue Transplanted to a Skin Wound, by THELMA B. DUNN 285

Gene-Milk Agent Relationship in Mammary-Tumor Development, by WALTER E. HESTON, MARGARET K. DERINGER, and HOWARD B. ANDERVONT 289

Data on Cancer Therapy (Note to readers), by HELEN M. DYER 309

Conference on Gastric Cancer 311

Gastric Physiology in Relation to Gastric Cancer, by A. C. IVY 313

Genetic Analysis of the Induction of Tumors by Methylcholanthrene. IX. Induced and Spontaneous Adenocarcinomas of the Stomach in Mice, by LEONELL C. STRONG 339

Superficial Spreading Type of Carcinoma of the Stomach, by ARTHUR PURDY STOUT 363

Radical Surgery for Gastric Cancer, by ALEXANDER BRUNSCHWIG 365

Physiology of Mucus Secretion, by FRANKLIN HOLLANDER 367

Excretion of Sulfa Drugs by the Stomachs of Normal Persons and Patients With Gastritits, Peptic Ulcer, and Gastric Cancer, by LEON SCHIFF 369

Disturbance of Sugar Metabolism in Gastric Cancer, by HERON O. SINGHER 371

Multiple Cancers of the Human Gastrointestinal Tract, by SHIELDS WARREN 375

Observations on Chronic Gastritis and Cancer, by WILLIAM A. MEISSNER 377

Fate of the C3H Milk Influence in Mice of Strains C and C57 Black, by HOWARD B. ANDERVONT 383

Relation of Milk Influence to Mammary Tumors of Hybrid Mice, by HOWARD B. ANDERVONT 391

Susceptibility of Young and of Adult Mice to the Mammary-Tumor Agent, by HOWARD B. ANDERVONT 397

Estrus in Virgin Strain C3H (High-Tumor) and Virgin Strain A (Low-Tumor) Mice and in the Reciprocal (A $\times$ C3H) F_1 Hybrids, by MARGARET K. DERINGER, WALTER E. HESTON, and HOWARD B. ANDERVONT 403

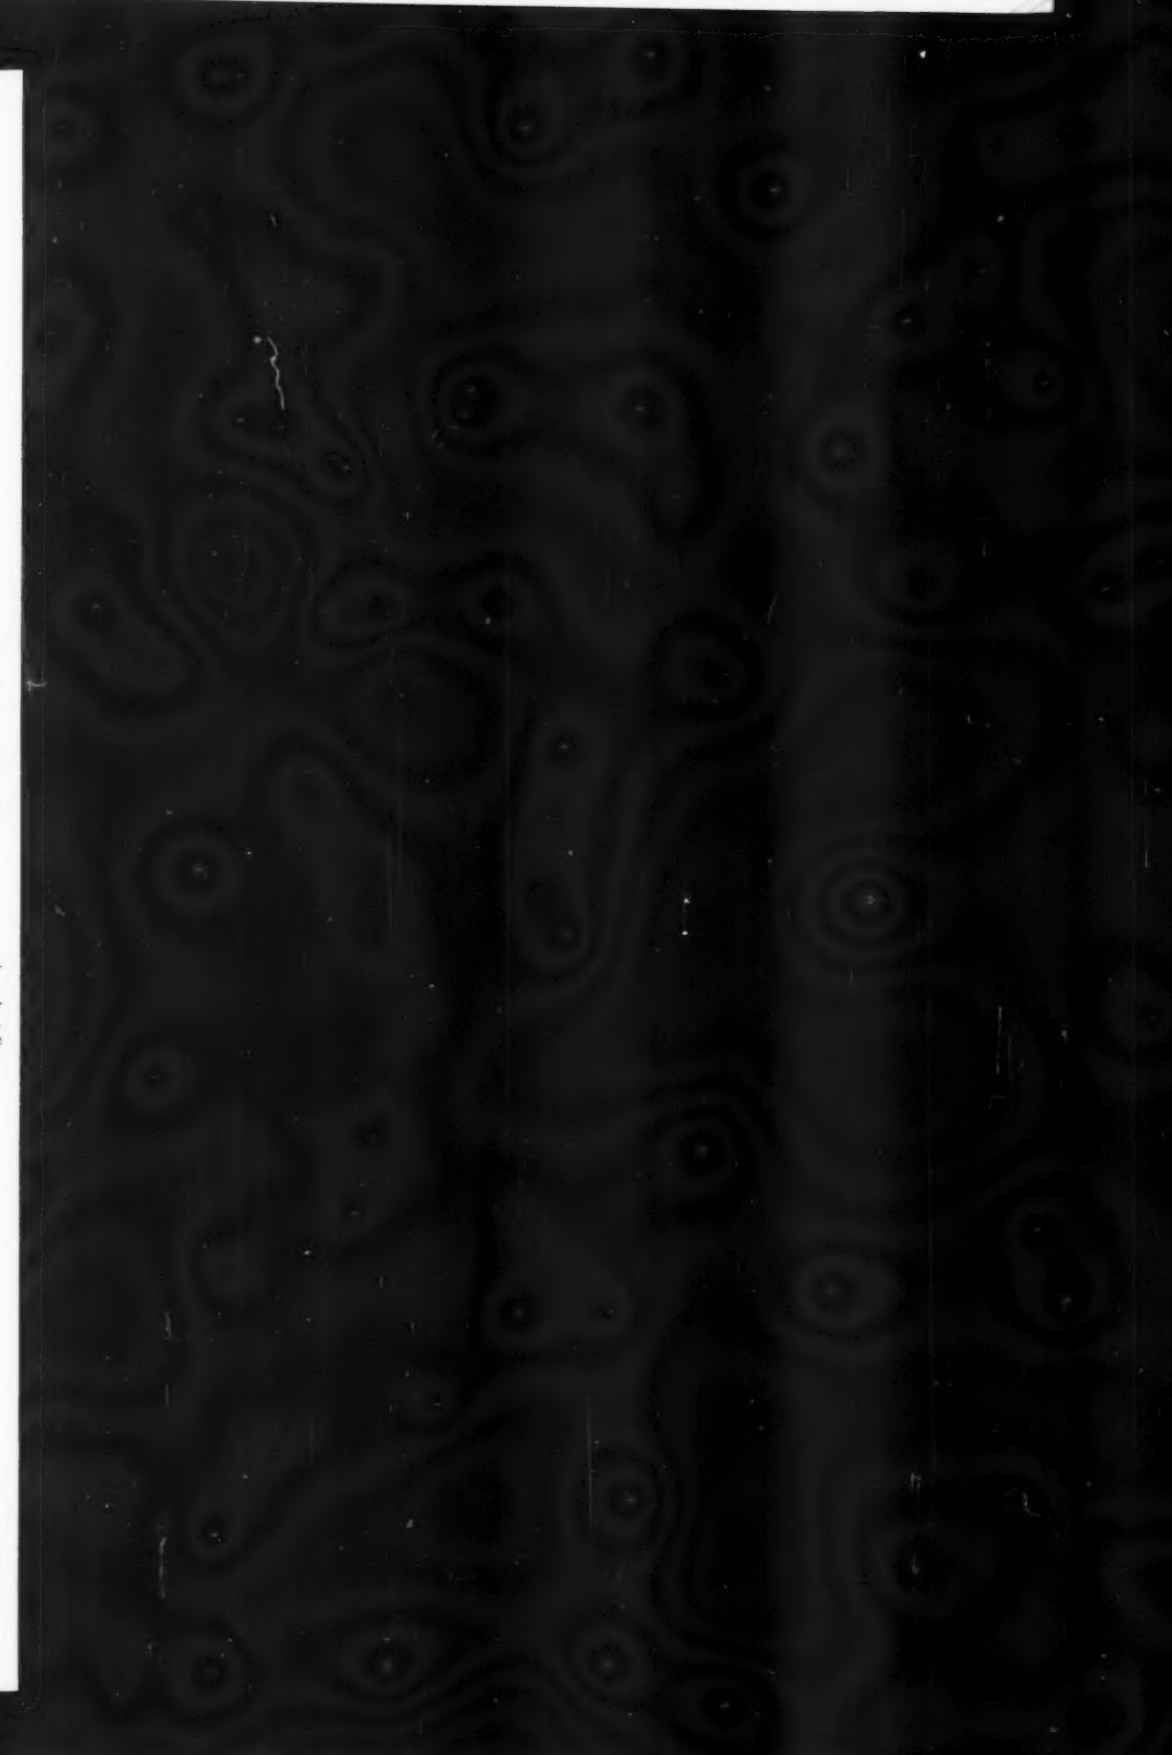
Polarographic Response of Deproteinated Serum of Individual Rabbits Before and After Implantation With the Brown-Pearce Carcinoma, by BENTON B. WESTFALL, J. W. THOMPSON, and DEAN BURK 407

Further Studies on Urethane-Induced Pulmonary Tumors, by PAUL S. HENSHAW and HENRY L. MEYER 415

Implications From Studies With Physical Carcinogens, by PAUL S. HENSHAW 419

The Results of Homoplastic, Heteroplastic, and Xenoplastic Transplantation of the Optic Vesicle in *Triturus* and *Rana*, by MARGARET KEATING DERINGER 437

Changes in the Organs of Female C3H Mice Receiving Thiourea, by ALBERT J. DALTON, HAROLD P. MORRIS, and CELIA S. DUBNIK 451

ERRATA AND EMENDATION


Page 2, column 1, line 18, "year" should be "years."
Page 8, column 1, line 5, "Smiliar" should be "Similar."
Page 12, column 2, line 26, "particule" should be "particle."
Page 14, reference 3, line 2, "and" should be "und"; reference 13, line 4, "besodere" should be "besondere"; and reference 23, line 2, "Berglenten" should be "Bergleuten."
Page 15, reference 31, there should be a period after "animaux."
Page 51, column 2, line 6, "was" should be "were."
Page 69, table 4, footnote 2, "mic" should be "mice."
Page 74, column 2, line 27, should read "liver, kidney" etc., instead of "heart, kidney," etc.
Page 76, reference 27, line 2, should be "und" and not "and."
Page 97, reference 15, line 2, "chemise" should be "chemie" and the 4 lines immediately preceding this reference should follow "Krebskrank–".
Page 140, reference 92, line 2, "III" should be "II."
Page 170, reference 16, the pagination is 289–307.
Page 177, column 2, line 1, "P–21" should be "P–2l."
Page 187, column 1, last line, there should be a hyphen after "with."
Page 199, column 2, seventeenth line from bottom of page, "lmyphadenopathy" should be "lymphadenopathy."
Page 213, column 1, last line of first paragraph, "moities" should be "moieties." In table 1, column 1, and line 4, there should be a hyphen between *l* and Cystinyldidiglycine."
Page 232, reference 3, line 1, "numan" should be "human."
Page 246, column 2, line 1, "leukemina" should be "leukemia."
Page 251, column 2, first line under RESULTS should read "occurrence" not "occurence."
Page 279, last line in legend for figure 4, "strain" should be "stain."
Page 284, legend for figure 2, "Expermental" should be "Experimental."
Page 291, and elsewhere, in running head, "Mamary" should be "Mammary."
Page 295, column 2, "three-fourth" should be "three-fourths."
Page 337, column 2, the title of Dr. Strong's paper should read "by methylcholanthrene" instead of "with methylcholanthrene."
Page 355, reference 9, the subtitle of this paper as published was changed to "Two new mutations arising in mice following injection of methylcholanthrene." The pagination is 232–236.
Page 372, column 1, line 27, "was revealed by the oral curves" should be "as was revealed by the oral curves."
